**TO WHOMSOEVER IT MAY CONCERN**

This is to certify that the modified Air Nozzle supplied by **M/s.SRI SAI INDUSTRIES** and erected by **M/s.SRI SAI PUMPS & ENERGY SYSTEMS PRIVATE LIMITED** has eliminated the following problem encountered in the earlier design of Air Nozzle supplied by the OEM.

1. Frequent damages to Air Nozzles.
2. Due to nozzle damage, bed material back shifting to air box.
3. Improper air distribution causing disturbance for fluidisation resulting in increased LOI % in Ash.

Presently our CFBC boiler is running smoothly without above problems.

We wish them great success in their endeavour and also their continued association with our 60MW unit in the years to come.

**For ARS Energy Private Limited,**
